

Money Advice

How can Harlowsave help you achieve your financial goals

At the heart of the Harlowsave ethos is the best interest of its members.

Whether you are looking to save for Christmas, a dream holiday or just in need of a quick loan to help to pay for a new washing machine or consolidate existing debts Harlowsave may be able to offer you saving and loan options not available via other financial institutions.

Once you become a member we can work with you to achieve your long and short term financial goals.

People often turn to the loan companies that advertise on the television or the internet because it appears that a short term high-interest loan is the only option available to them. In nearly all cases the Harlowsave Credit Union is a much fairer and safer option.

Harlowsave has a good track record in helping members get out of financial difficulties and plan expenditure and saving so that the pattern of debt can be avoided.

SMARTAdvice

Harlowsave also works alongside SMARTAdvice. Available for people who live Harlow, SMARTAdvice is a friendly expert money advice service for when your finances get a little bit complicated. Appointments are available for a confidential one-to-one session

with one of their money advice experts.
